Junior: Mini-me designs for young changemakers.

The Junior collection from Save The Duck caters to the young pioneers of tomorrow, proving that even the smallest steps can pave the way for change. Ranging from versatile all-weather parkas to our signature puffer jackets, the offering retains its hallmark qualities: animal-free materials, practical features, and a playful twist.

Echoing the beloved styles of their parents' favorites, the pieces are tailored to dress the little ones in the same fashion-forward and comfortable designs characteristic of the adult collection. Ideal for those seeking a mini-me look, this line allows parents and children to share a common style language, celebrating individuality and unity in every stitch.
